Pierre SudTM

Pierre SudTM

Pierre Sud features tumbled French and Moroccan limestone that captures the soul of old-world Mediterranean architecture. Through careful craftsmanship, each piece replicates the weathered patina and soft edges of stone worn smooth by centuries of use. Available in multiple sizes and mosaics, this collection brings timeless, sun-drenched character to any space.

Variation, Usage & Technical Information - Natural Stone Pierre Sud

Variation

Pierre Sud Natural Stone tiles are products of nature and no two tiles will look exactly alike. Please expect the following characteristics, which are intended and part of the product's appeal.

- Variation in color
- Variation in veining
- Appearance of fossils and other inclusions
- Variation in movement of color and grain size
- Variation in surface finish

Variation between samples and tiles received is possible, as natural stone is a product of nature and no two pieces will be exactly alike. Samples received before shipment of order should be considered indicative of color only. Driftwood Design Lab will not honor any claims made for these characteristics listed above if claimed as defects.

Pierre Sud Limestone Tile - Recommended Usage			
Wall Application		Suitable	
Interior Wall/Backsplash		Yes*	
Fireplace/Cooktop Surround		Yes**	
Shower Wall		Yes*	
Steam Shower		No	
Exterior Wall		Yes***	
Pool, Spa or Water Feature (fully submerged)		No	
Floor Application		Interior	Exterior
Shower		Yes [■]	Yes [■]
Residential		Yes	Yes*, ***
Light Commercial		Yes	Yes*, ***
Medium Commercial		Yes	Yes*, ***
Application Notes		Floor Application Definitions	
* With proper sealing and maintenance per setting material and sealer manufacturer recommendations. ** Acceptable for limited and sporadic exposure near open flame or heat source, including fireplace wall/cooktop surround. It is not recommended for placement inside a firebox. *** ONLY acceptable in non-freeze thaw climates unless otherwise stated by setting material and sealer manufacturer in writing. ■ For best outcomes, natural stone in a shower floor application should be installed with a weep system around the drain. See TCNA B-414, B-415, B-441, B-420, B-426, B-431, and B-421-22. As natural stone tile performance in a shower floor environment is affected by installation methods, Driftwood Design Lab is not responsible for the darkening or delamination of tiles installed on a shower floor.		<u>Light Residential</u> - For residential areas with light foot traffic. It can include a bathroom, bedroom, formal dining, and living room. Please note the following: suitable for soft soled shoes, hard soled shoes and heels should be avoided. The floor must be kept clean from abrasive debris (gravel, mud, salt, etc.) Immediately clean all stains. <u>Residential</u> - For residential areas with continuous foot traffic. It can include entry, hallway, kitchen, foyer, laundry, and mud rooms. Please note the following: the floor must be kept clean from abrasive debris (sand, gravel, mud, salt, etc.) Immediately clean all stains. <u>Light Commercial</u> - For commercial areas with light foot traffic. It can include commercial offices, doctor's offices, and boutiques. Please note the following: The floor must be kept clean from abrasive debris (sand, gravel, mud, salt, etc.) Immediately clean all stains.	
Notes			
Since variations are common in natural stone tile, we recommend final selection be made from an actual tile mock-up. To achieve optimal results in shading, layout and design, tile should be randomly selected from multiple boxes during installation. We recommend a minimum of 10% overage on all orders. All Pierre Sud tiles must be sealed before grouting with a high-quality penetrating sealer. <i>Installation constitutes acceptance.</i> We advise retaining control samples to aid in color matching if additional material is required (match not guaranteed). MAINTENANCE - Please see Laticrete MCI-118, routine cleaning can be done with light duty, diluted close to neutral pH detergent cleaner or any non-abrasive cleaning solutions.			

Pierre Sud Installation Guidelines include important methods that if not followed may result in an unsatisfactory installation. For installation instructions, please visit: [DriftwoodDesignLab.com](https://www.driftwooddesignlab.com)
